

**AMENDMENTS TO THE CLAIMS**

The listing of claims will replace all prior versions, and listings, of claims in the application:

---

Claims 1-3 (Canceled)

4. (New) A computer mouse with pencil grip, the computer mouse comprising:

a mouse body;

a pencil shaft;

control buttons operable as right and left mouse buttons;

wherein the control buttons are placed on a lower part of the pencil shaft;

wherein the pencil shaft is placed on a posterior part of the mouse body;

wherein the pencil shaft is slightly tilted backwards from the mouse body

such that the pencil shaft's weight is balanced; and

wherein the pencil shaft remains in an operative position at all times.

5. (New) The computer mouse with pencil grip according to claim 1, wherein a thickness of the mouse body in the posterior part is not thicker than a normal pencil grip around the pencil shaft.

6. (New) The computer mouse with pencil grip according to claim 1, wherein a height of the mouse body in the posterior part is not higher than a normal pencil height.

7. (New) The computer mouse with pencil grip according to claim 1, wherein a diameter of the pencil shaft provides a stable grip when being used.
